

N-1444-50 LSH Sealer

N-1444-50 LSH Sealer

Pneumatic tensioners take most of the effort out of strapping large or compressible packages. They also make tensioning uniform and precise through adjustment of the air pressure regulator.

Most of our pneumatic tensioners have unlimited strap take up. It is essential that an air filter-regulator-lubricator assembly be installed ahead of the tool on the air line.
